Hi everyone,

I would like to let everyone know that **October 14, 2013** is the final day that we need to enter **2013 accomplishments, 2014 SCAP targets, and planned obligations** in CERCLIS. SEMs/Primavera will be live on October 15, 2013 and CERCLIS will be switched to "Read only" access. End of year work planning is tentatively scheduled to occur in mid November and it will be a national meeting/call similar to mid-year.

Please review the attached Superfund Targets/Accomplishments reports for your program and let me know three things:

1. Let me know if any outstanding 2013 targets or planned activities need to be moved to 2014 or beyond.
2. Review the planned activities for 2014 and let me know if any of the activities can be identify as target for 2014. GPRA targets have already been set. This exercise relates to SCAP targets only and only apply to the Remedial Program (Federal Facility, and MT Office) and Enforcement.
3. Review the 2014 planned RA and Pipeline needs and let me know if anything needs to be added, change, or delete . This apply only to the Denver Remedial Program and MT Office.

Please response by **COB Monday, October 7<sup>th</sup>** and let me know if you have any questions or if I can assist in any way.

Thanks  
Dianna
